SKILL SET

React JS	Node	MongoDB	Git
Next JS	Express JS	Firebase	Nx Mono repo
JavaScript	RESTful API	Convex	Clerk

PROJECTS

Erie Wedding Officiant - event management [Ongoing project] | [\[Live preview\]](#)

React JS , Node JS , MongoDB

- Built the web interface using React JS, used customised notifications, and used MongoDB for Database.
- The server is built on Node.js, multer is used for file uploads, and JWT is used for authentication token management.
- Implemented an integrated chat with socket.io and a dynamic invoice printing system.

TextKumir - Online Collaborative text editor | [\[Live_preview\]](#) | [\[Github\]](#)

Tech Stack: Next.js, Tailwind CSS, Clerk, Liveblocks, Convex, Tiptap

- Built TextKumir, a real-time collaborative text editor with advanced editing tools with **35 active users using it**.
- Added templates and blank document editing, supporting PDF, DOCX, HTML, and JSON exports.
- Developed a rich text toolbar with undo/redo, formatting, font styles, table/image insertion, and more.
- Enabled team-based collaboration, allowing users to share and edit documents in real time.

Olive & Lime – Restaurant Website | [\[Live preview\]](#) | [\[Github\]](#) | [\[Server\]](#)

Tech Stack: React, Tailwind CSS, Firebase, MUI

- Delivered Olive & Lime, a dynamic restaurant website with an admin panel.
- Built a fully editable UI, including the menu, cards, header, and footer, for easy customization.
- Ensured SEO optimization with proper meta tags despite being a React-based site.
- Developed a smooth and responsive experience using React, Tailwind CSS, and Firebase.

CERTIFICATION & ACHIVEMENTS

- Frontend Developer (React) Certificate**

Certification in React components, JavaScript logic, and CSS for scalable, user-focused web apps.

- Rest API (Intermediate) Certificate**

Proficient in fetching, processing, and paginating API data with parameterized requests.

- React (Basic) Certificate**

Mastered React: state, events, ES6, and form validation. Built dynamic UIs with components.

- JavaScript Algorithms and Data Structures**

FreeCodeCamp-certified in JavaScript, with projects like Caesar's Cipher and Telephone Validator.
